LAND ROVER EVOQUE

Situation

You are on a work placement at Land Rover's head office in London. The new Land Rover Evoque is coming out next spring.

Tasks

You are expected to:

- phone loyal customers living around Bristol,
- present the new car,
- invite them to the exclusive preview event,
- suggest them two dates and locations.

Vocabulary:

infotainment: info-divertissement

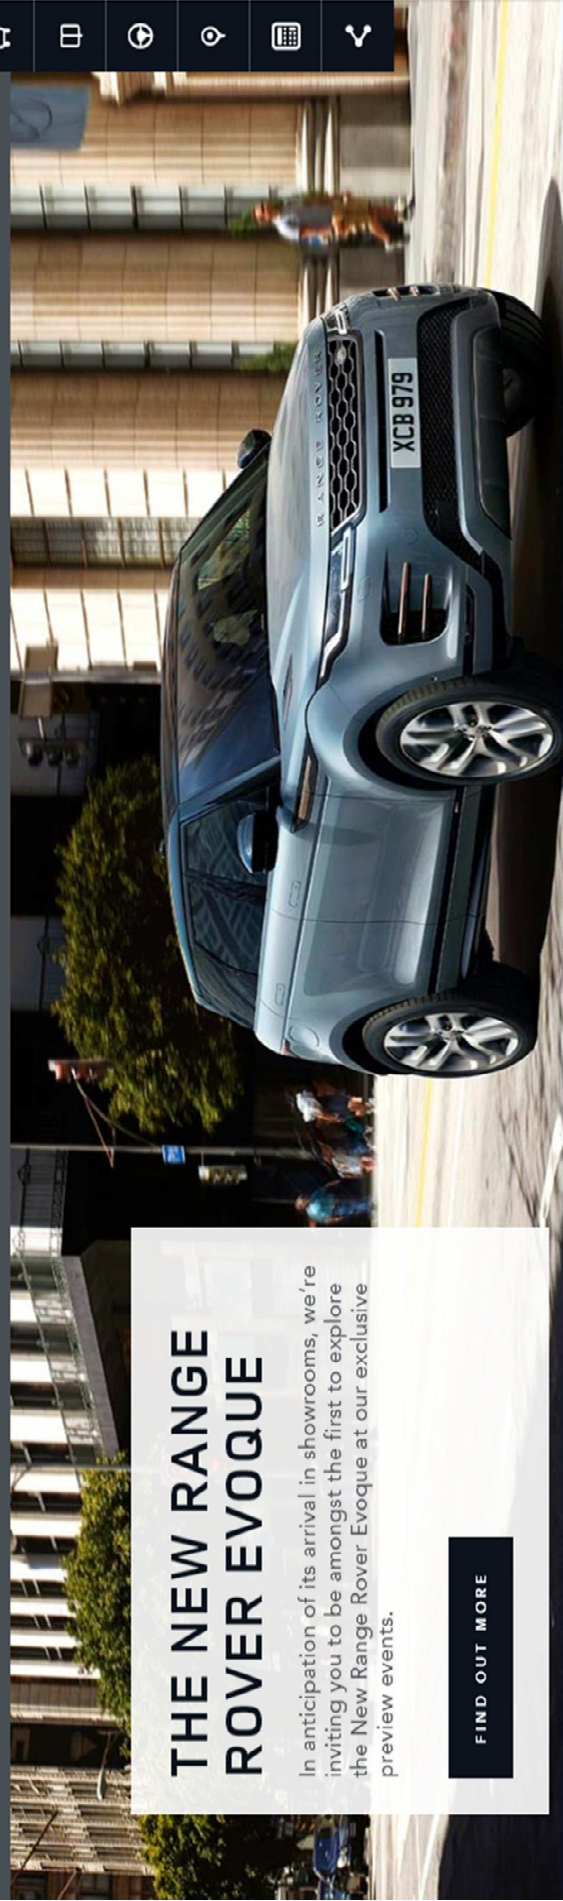

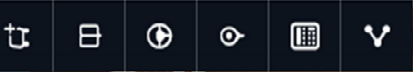

nestled: niché

EVOQUE TOUR

THE EXCLUSIVE PREVIEW EVENT

This winter we're taking the new Range Rover Evoque on tour to Retailers up and down the country. Giving you the chance to be one of the first to see it up close, ahead of its much-anticipated arrival into Land Rover Retailers in spring. Simply use the map below to find your nearest tour location.

Land Rover's cheapest model is now available with hybrid engine

Prices

Prices for entry-level Evoque models start at £31,600, with S and SE variants carrying £3,150 and £6,650 premiums respectively over the base car.

Design and interior

Inside, the cabin has a “more modern” feel. A large digital panel containing the car’s instruments can be found behind the steering wheel. Next to that is another touchscreen for controlling the infotainment* system like the radio, GPS, traffic information, Bluetooth... A separate touchscreen panel is nestled* in the centre console, featuring the car’s climate control settings.

Engine

Drivers can choose from a selection of three petrol and three diesel four-cylinder engines. With the exception of the entry-level manual diesel, all of the new Evoque models are equipped with 48-volt hybrid units. These systems can run on electric energy alone at up to 11mph.
