CHOOSING A DEODORANT

Situation

You work in a Boots pharmacy in Dublin. A customer who practices a lot of sport wants to choose an efficient deodorant.

Tasks

You are expected to:

- Compare the ingredients of two deodorants and explain the dangers of certain chemicals;
- Give the benefits of two ingredients of Saltway Botanicals deodorant;
- Advise your customer on which deodorant to choose.

Vocabulary:

- **wetness:** humidité
- **clog:** obstruer
- **smooth:** doux
- **likelihood:** probabilité
- **cell:** cellule

DESCRIPTION

ADDITIONAL INFORMATION

INGREDIENTS

REVIEWS (8)

Our mineral and plant-based deodorants are formulated to protect your body from toxic chemicals that are commonly found in antiperspirants. Its natural, organic, and non-toxic formula neutralizes odors and absorbs wetness without blocking sweat glands. The clean, floral aroma of lavender is gentle and relaxing.

Why it's Special:

- Plant-based, organic, and mineral ingredients
- Made with magnesium to absorb wetness and neutralize odor
- Free from aluminum, baking soda, propylene glycol and synthetics
- Smooth application
- Formulated for sensitive underarms
- Doesn't clog pores
- Naturally antibacterial
- Scented with therapeutic-grade essential oils
- Certified vegan and cruelty-free
- Green alternative to conventional antiperspirants
- For anyone, any gender and any age
