How many of you are addicted to smartphones ? I have long felt that I did. Having 30+ smartphones in the last 4 years. I have slowed down considerably this year. Have had my 5s phone for three months now.

Hi! Sorry for not keeping in touch these days...
To be honest, I don't feel very well...
I have personal problems and I am seriously considering stopping my studies.
What would you do if you were in my situation?
