

Did you say  
Masterpiece?

Big results require big  
ambitions.

HERACLITUS

We are the students from Jean  
Vigo Vocational High School  
option Catering and  
Hospitality Services and we are  
proud to present our  
masterpiece!

This project consisted in the creation of an aromatic spiral for the training restaurant of our school.

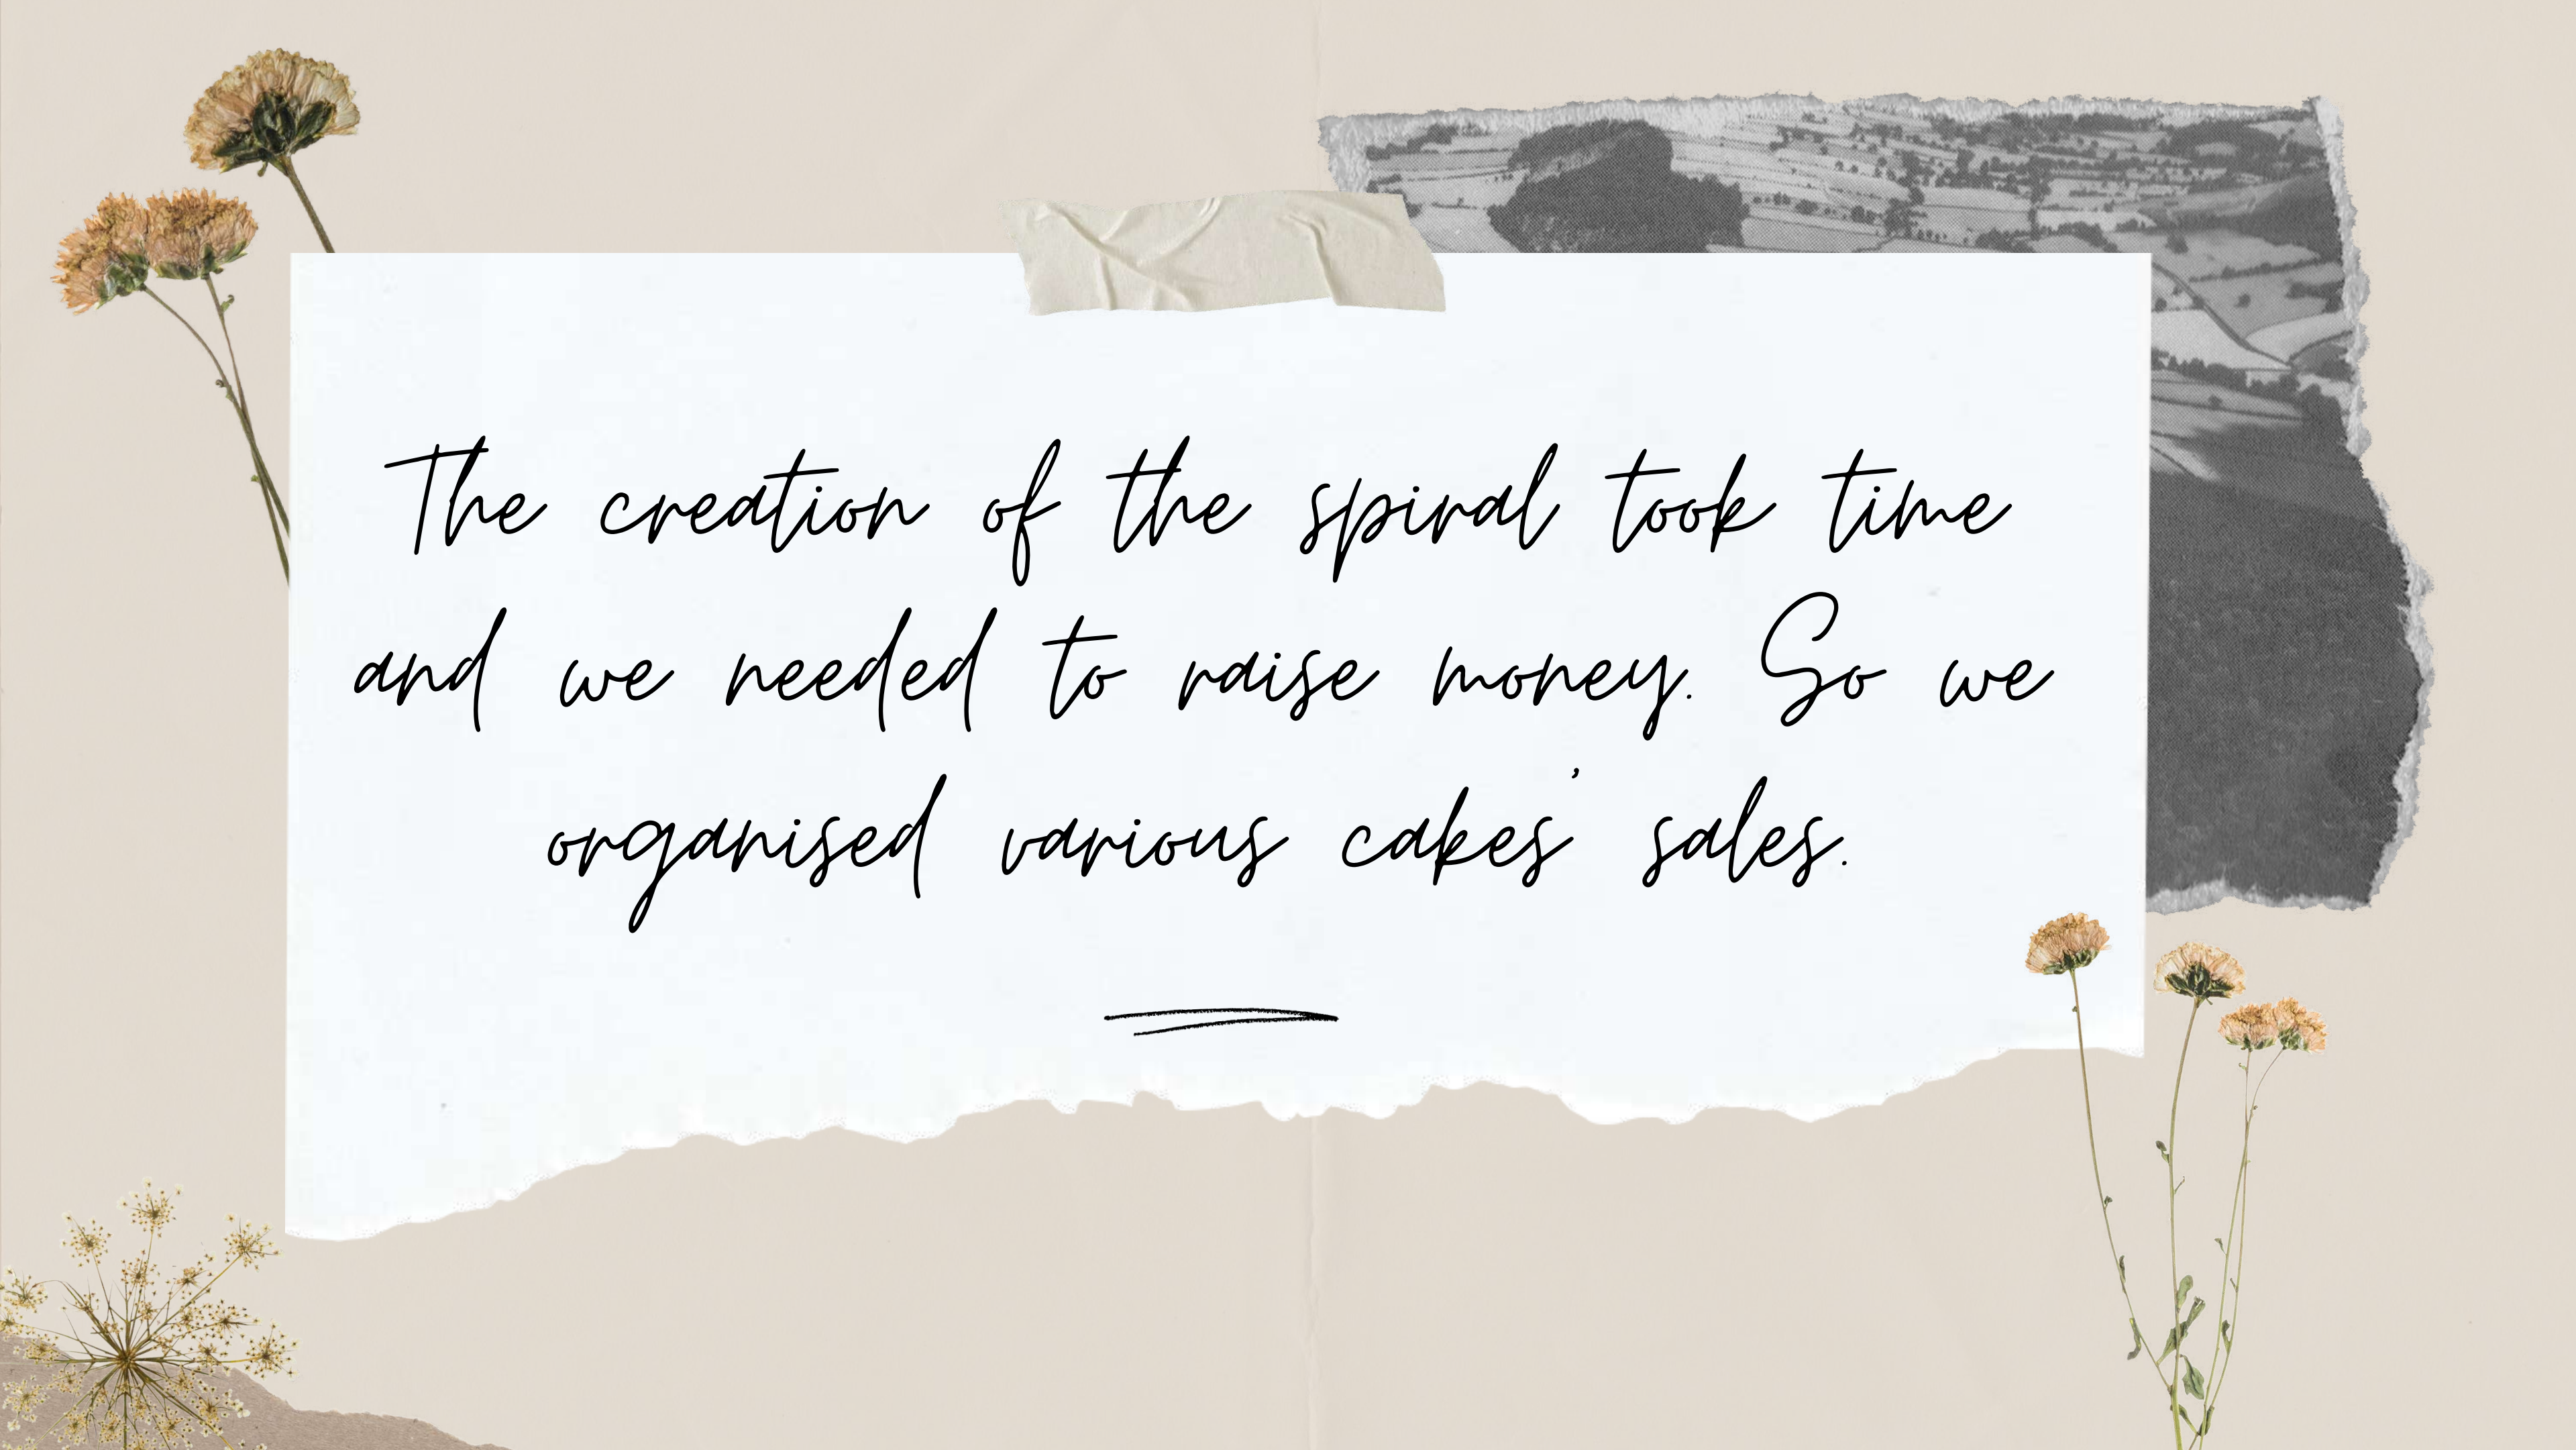

To create the spiral, we asked the help of another class from the school, a Public Works class .

Thanks to the advice of a permaculture expert, and the precious help from a Public Works class from our school, we gave birth to an aromatic spiral.

The creation of the spiral took time  
and we needed to raise money. So we  
organised various cakes' sales.

---

The two cakes' sales were a success and money was collected to finance our project and a school trip.

In September 2021, we organized a meal to thank local contributors to the project: the permaculture expert, the Public Works class and all the people who participated in the project.

Learning about herbs was  
a necessity and practical  
classes were devoted to the  
use of herbs in the  
kitchen.

---

A meal with a service in English is organised with Millau / Bridlington twinning comity. The theme of the meal will be around herbs from the starter to the dessert.

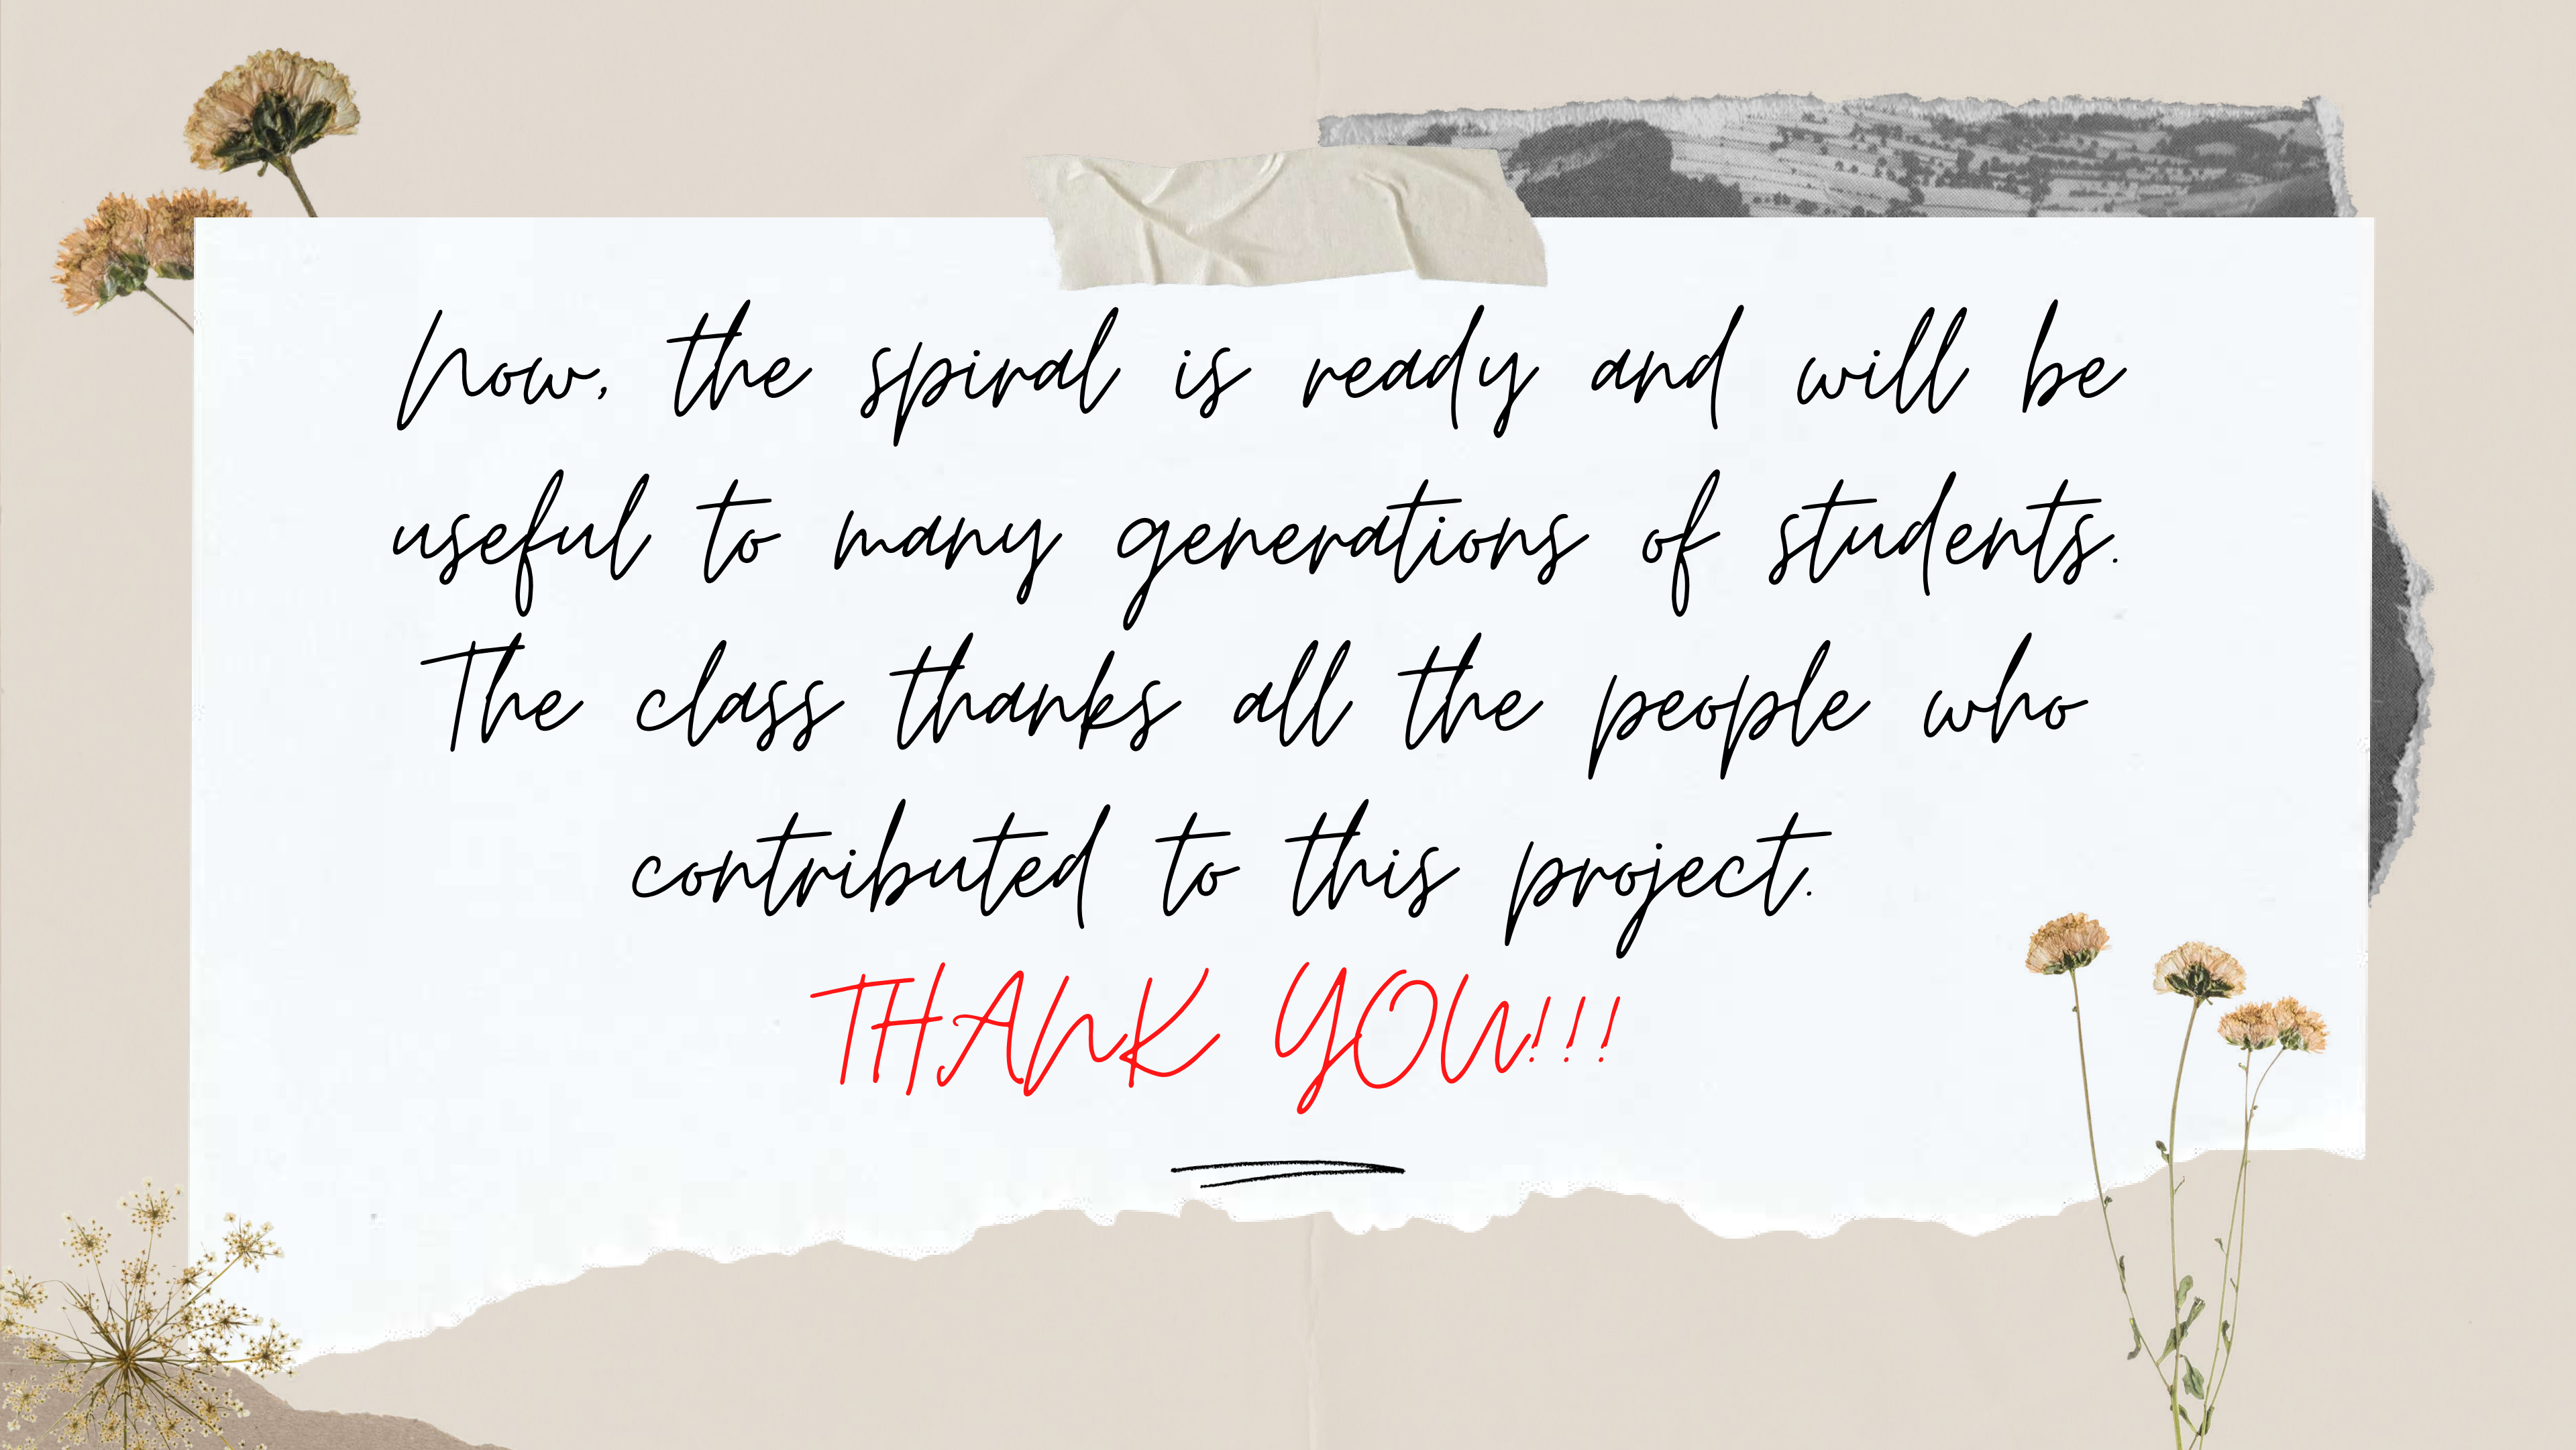

The dessert of the meal is based on a local specialty: the spit cake. That's why we needed more information about this specific dessert in order to suggest a variation with herbs inside!

We visited a local shop which produce spit cakes, called Maison Alibert.

Now, the spiral is ready and will be  
useful to many generations of students.  
The class thanks all the people who  
contributed to this project.

**THANK YOU!!!**
