

*Please, don' forget to give back the examination papers at the end of the test.*

On the sheet attached, an architect began to draw the natural perspective of a house with a garden but didn't finish it. The point V is the main vanishing point of the drawing.

1) Complete the drawing of the house on the sheet attached (page 2).

2) Near the house, there is a swimming-pool with a spring in the center.

The segment [AB] is the front edge of the swimming pool, the point O marks the position of the spring. Complete the drawing of the swimming-pool.

3) Prepare the answers to the following questions :

- What are the rules of natural perspective?
- Explain the rules and properties you have used to finish each of these two drawings.
