

Subject n°22 (2 pages) -

Please, give back the examination papers at the end of the test.

The drawing below represents the project of a tiled terrace looked down on from above.
On the right side of the terrace, there is a path lined up with trees.

On page 2, another drawing of this terrace, in natural perspective with the trees hasn't been finished.

- 1) The main vanishing point is V1, the vanishing point giving the depth of the drawing is V2. Only the front edge [AD] of the terrace is given.
Complete the drawing of the terrace.
- 2) The trees are supposed to be the same height and have the same distance between them.
 - a) Draw the missing tree P2 which is between P1 and P3.
 - b) Draw one more tree, P5, on the line behind P4.
- 3) Prepare the answers to the following questions :
 - a) What are the rules of natural perspective ?
 - b) Explain the rules and properties you have used to finish each of these drawings.
