

**Créer** des images mentales pour  
**automatiser** les conditions  
d'application de propriétés :

l'exemple de droites parallèles.

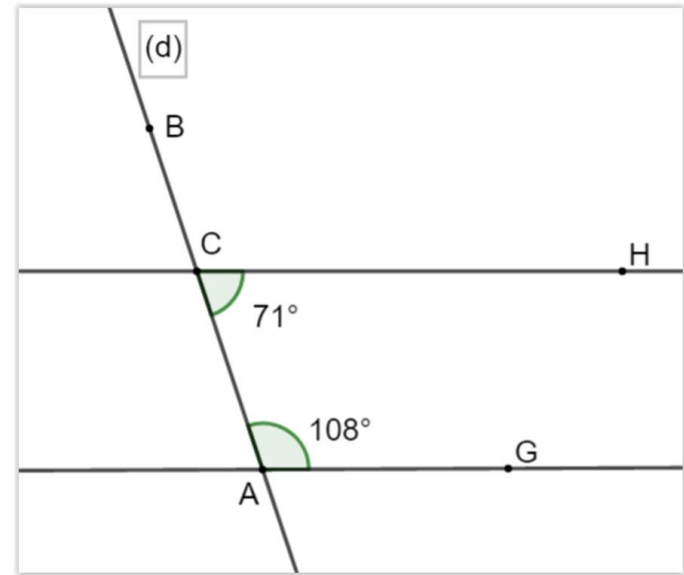

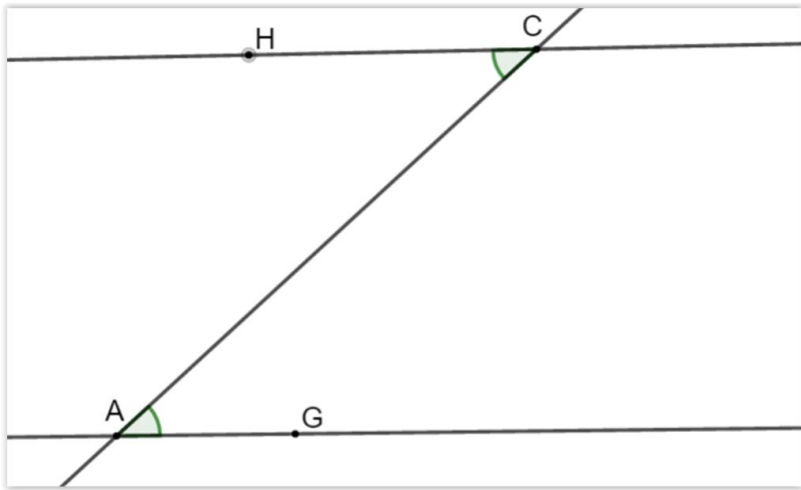

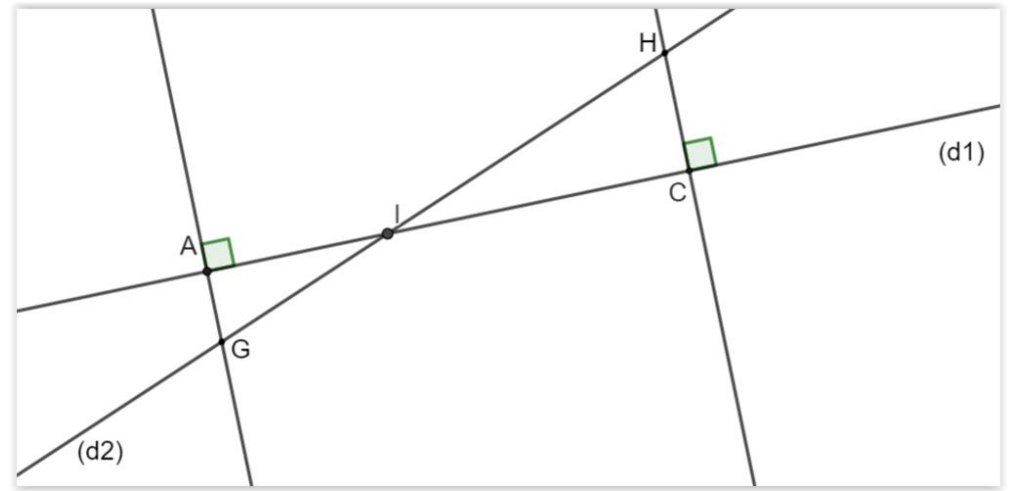

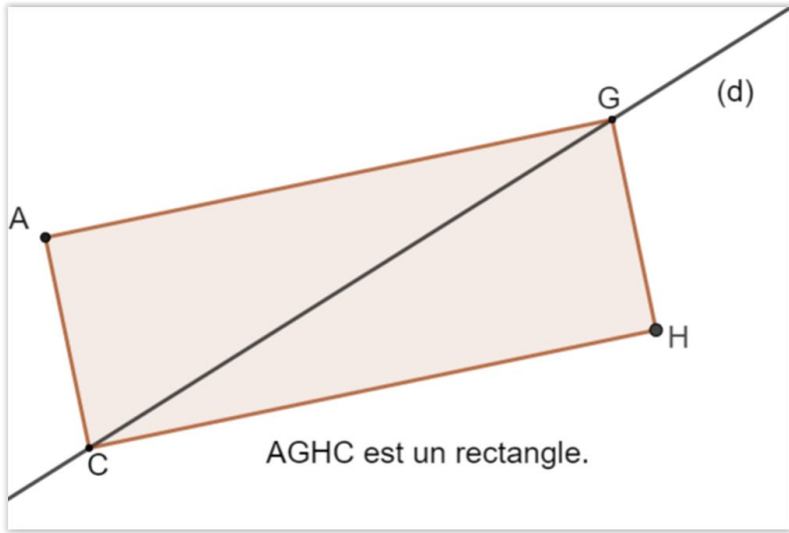

Que dire des droites de la  
figure qui suit ?

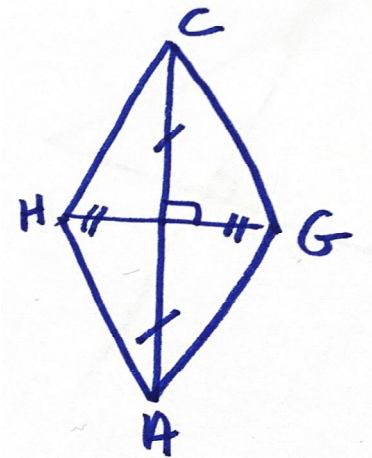

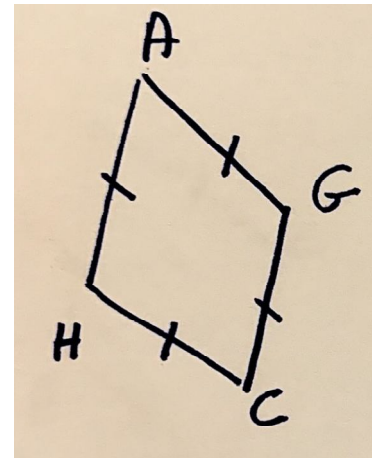

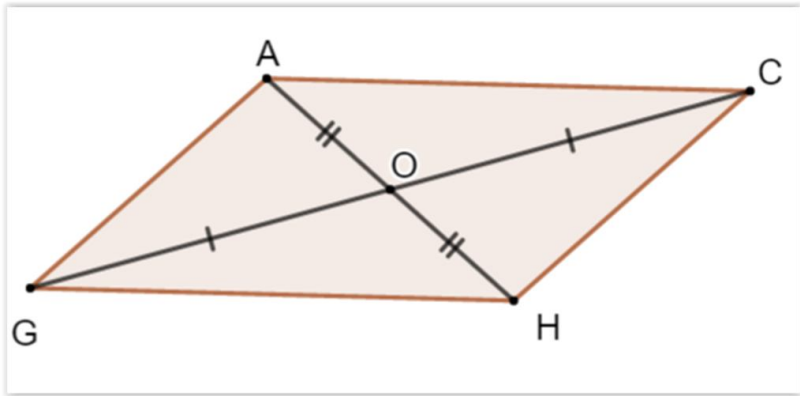

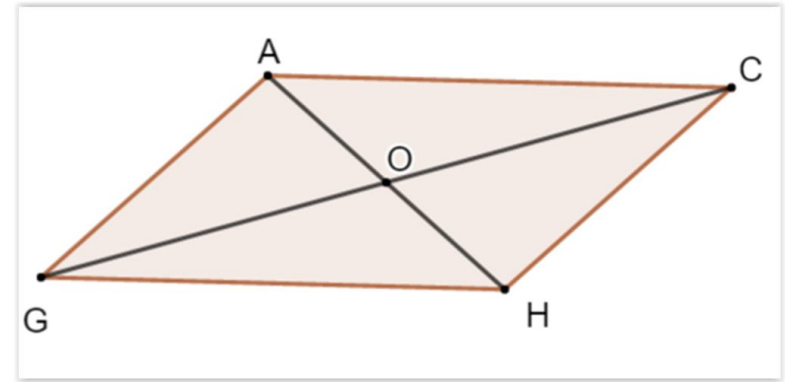

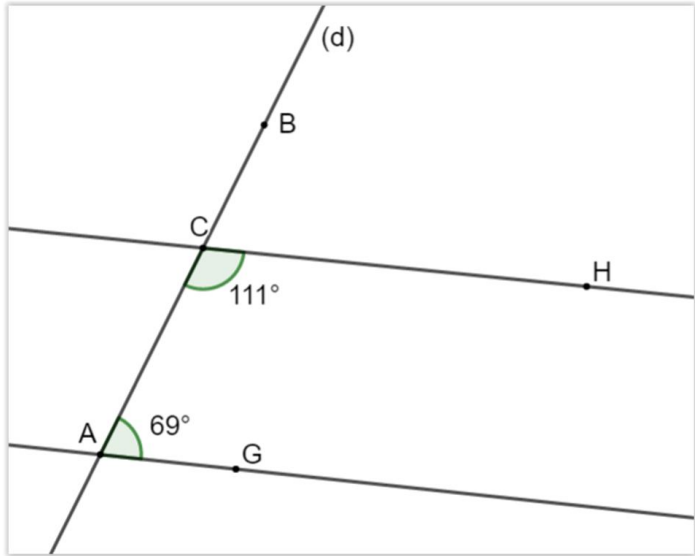

Niveau 6<sup>e</sup>

Que dire des droites  
(AG) et (CH) ?

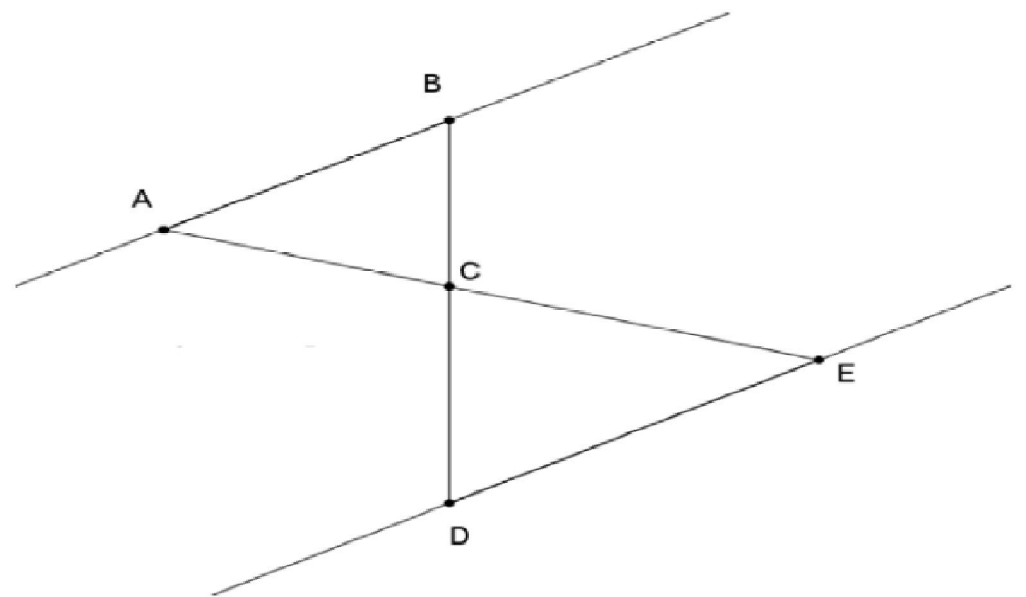

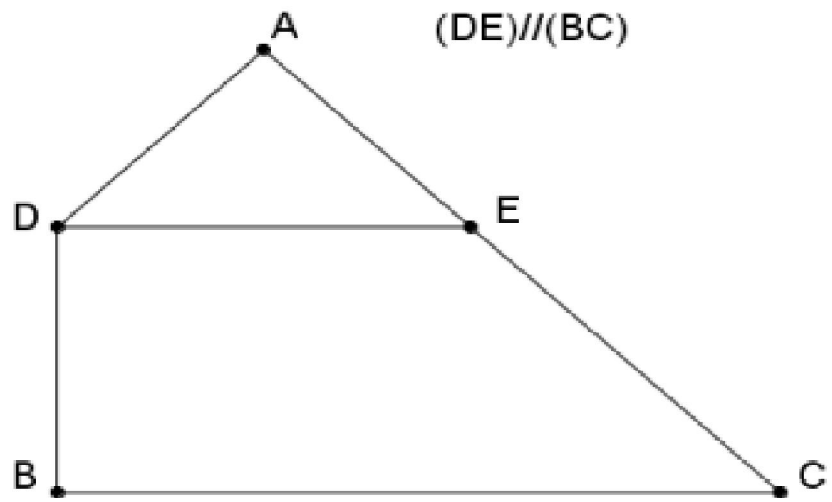

Niveau 5<sup>e</sup>

*Pour chacune des figures suivantes, peut-on appliquer le théorème de Thalès ?  
Si oui, donner les égalités des quotients correspondants.  
Si non, dire pourquoi.*

Niveau 3<sup>e</sup>

**Les droites (AE) et (BD)  
sont sécantes en C.**
