<http://www.tiertime.com/EN/service/download/>
Télécharger la dernière version

2 Une fois le fichier .zip téléchargé, penser à le **DEBLOQUER**

3 Depuis une session adminsta : Installer le logiciel

7

Terminer par modifier le raccourci de UPstudio pour qu'il devienne :

C:\Windows\MAGRET\magicuser.exe "C:\Program Files\UP Studio\win64\UPStudio.exe »

Un merci particulier à Jean-Marc MONGRELET pour les explications et prises d'écrans.
